

**Wear PURPLE on Friday September 21st
to Support
Alzheimer's Research**

Alzheimer's Disease is a brain disease that slowly destroys brain cells. The disease affects different parts of the brain but has its worst effects on the areas of the brain that control memory, language, and thinking skills. Alzheimer's disease effects more than 55 MILLION people in the United States alone. YOU CAN HELP!

Simply wear purple to school on Friday September 21st (crazy hair day) and \$1.00 will be donated to the "Walk to End Alzheimer's"!
